Subject: YUCCA MTN.

Page 1 of 54

My name is Steve Sanson President of Veterans In Politics I plan to be at the event on 12/3 in Las Vegas.

1 [My comments are:

- 1) With the high level of terrorism how safe is it to travel with the nations nuclear waste through our cities?
- 2) How safe is it to store all the nations nuclear waste at one location from terrorism and natural disasters?
- 3) How safe are the transportation vehicles and Yucca Mountain itself from the smallest amounts of radiation leakage?

1
Thank You
Steve Sanson
